MAYAKUNTLA LAKSHMI VIJAYA

Dharmavaram, Andhra Pradesh, India | +91 6300881046 | 2300039013cse3@gmail.com
LinkedIn | GitHub | LeetCode | CodeChef | HackerRank | Portfolio

Professional Summary

Computer Science undergraduate with a strong foundation in Python, Java, Artificial Intelligence, Machine Learning, and Full-Stack Development. Experienced in developing AI-powered applications and web solutions using React, Spring Boot, Python, and SQL. Interested in building intelligent software solutions, solving real-world problems, and continuously improving technical skills.

Education

Koneru Lakshmaiah Education Foundation 2024 – 2027
B.Tech in Computer Science and Engineering **CGPA: 9.46/10**

SV Government Polytechnic, Tirupati 2021 – 2024
Diploma in Computer Engineering **95%**

AP Model School, Dharmavaram 2020 – 2021
Board of Secondary Education, Andhra Pradesh **80%**

Technical Skills

Programming: Python, Java, C, SQL
Web Development: React, Spring Boot, Flask, REST APIs, HTML, CSS, JavaScript, PHP
AI/ML: Machine Learning, Deep Learning, NLP, Computer Vision, OCR
Databases: MySQL
Tools: Git, GitHub, Postman, VS Code
Core Subjects: Data Structures, OOP, DBMS, Operating Systems

Experience

Web Development Intern – CodeOn Technologies Jun 2023 – Nov 2023

- Developed responsive web applications using HTML, CSS, JavaScript, and PHP.
- Designed user interfaces using Figma and implemented backend functionality.
- Integrated MySQL databases and performed CRUD operations.
- Supported application debugging and functionality improvements.

Projects

KiranaSightAI | React, Python, Computer Vision, OCR GitHub | Live | Mar - Sep 2026

- Developed an AI-powered retail inventory monitoring system using shelf image analysis.
- Implemented Computer Vision and OCR-based text extraction for product information.
- Built an interactive interface for inventory monitoring and analysis.

Deadline Guardian AI | Python, AI GitHub | Live | Feb - June 2026

- Developed an AI-based productivity assistant for intelligent deadline management.
- Implemented task prioritization and personalized reminder recommendations.

World Cup AI Analyst | Python, Machine Learning GitHub | Live | Jan - May 2026

- Built a cricket analytics platform using historical match datasets.
- Generated player performance insights and match predictions through data analysis.

FarmerFriendly Web Application | React, Spring Boot, REST APIs, MySQL GitHub | Jan - Mar 2025

- Developed a full-stack web application connecting farmers and consumers.
- Built REST APIs using Spring Boot and integrated application data with MySQL.
- Designed responsive interfaces using React.

Hostel Management System | HTML, CSS, JavaScript, PHP, MySQL June - Nov 2023

- Developed modules for student records, authentication, and hostel management.
- Implemented room allocation, role-based access, and database CRUD operations.

Certifications

- Web Development and UI/UX – CodeOn Technologies
- Smart Coder Diamond Certificate – Smart Interviews

Achievements & Leadership

- Organized tech events for 200+ people as Co-Curricular Affairs Head at Innovation Hub.
- Participated in SBTET TechFest, competitive programming contests, and AI hackathons.
- Actively practice problem-solving through LeetCode, CodeChef, HackerRank, and Smart Interviews.
